# Proof Positive – Stacked!

“Only a virtuous people are capable of freedom. As nations become corrupt and vicious, they have more need of masters.”

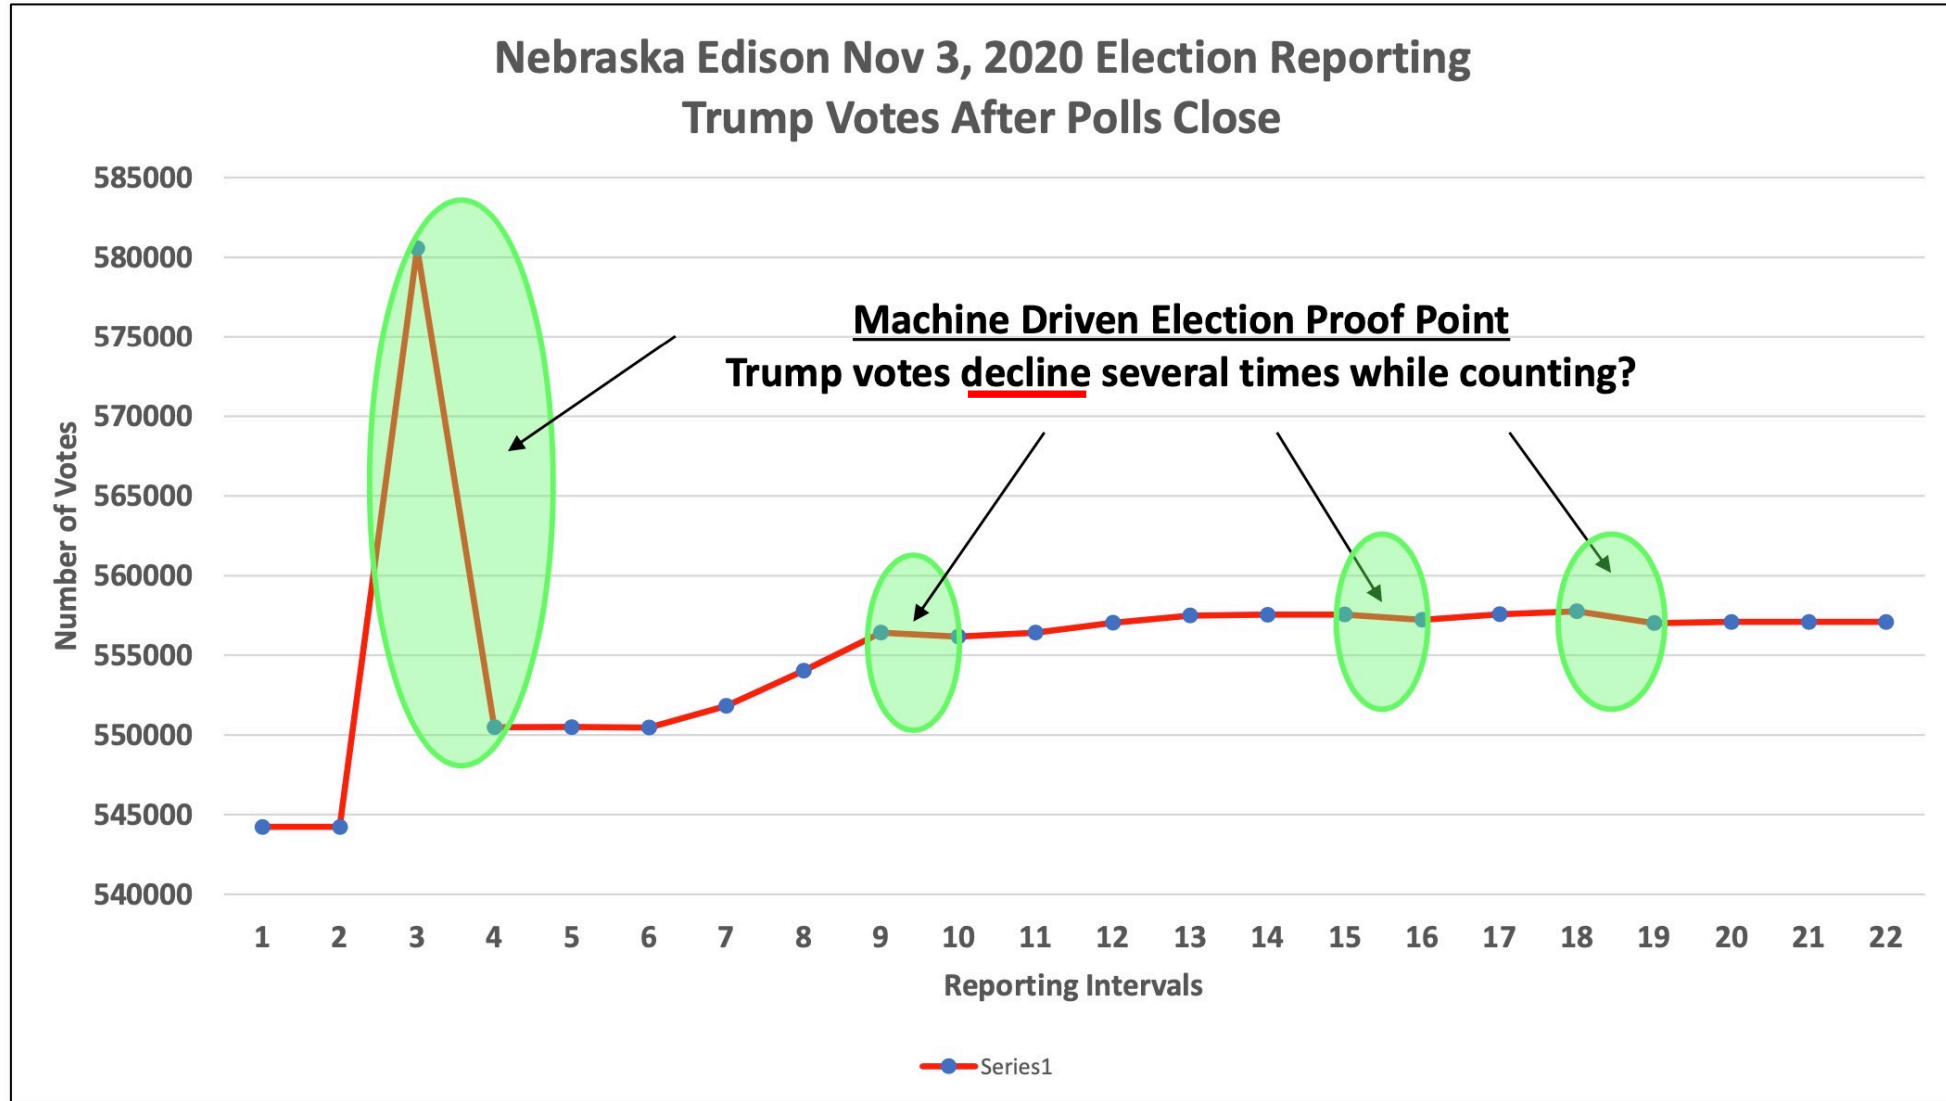

— Benjamin Franklin

Thousands of Nebraskans have steered our group by providing small inputs that we have collected and presented here in this powerful collection of proofs.

Thank you to all those Nebraskans who have worked tirelessly to research, walk the streets of small towns and big cities and bring this data to you.

# Proof Positive – Stacked!

# How Do They Process Votes?

We fill out a ballot and hand it to a Nebraska Election Official, in person or by mail, they enter it into a Scanner (97% of all votes) and **ES&S voting systems and software does the rest.**

One of the **big tools to prevent fraud is Segregation of Duties (SOD)**. For example, you can't have 1 person create an invoice, write the check to pay the invoice, balance the check book and provide the accounting reports without huge risk. The responsible party can simply write checks to themselves and report them as business expenses with any reason. ***Our Nebraska ES&S voting system violates every aspect of the concept.***

Source: NE Secretary of State and his Contracts

# Do you Know?

**What a wireless modem looks like** if you looked inside of a computer? In Arizona, they found that they were inside their voting computers, breaking the contract. **Did you also know that in Nebraska we don't check the ES&S Systems?**

What vote changing software code looks like is impossible unless you're a software engineer. What is really shocking is that contractually, our Secretary of State, Robert Evnen, and his technical team **are not contractually allowed by ES&S to review the hardware or software of our election counting machines and report any Negative results.**

THIS IS **NOT in accordance** with the Nebraska Constitution which says we'll have "free and open election franchises". Meaning not just the act of voting, but the rest of the process will be open for us to view and understand.

# Did you Know?

That **our SoS says our ES&S voting doesn't have an internet connection, but the votes in every county were reported in near real time** to the state? ***They do it with Memory Sticks.***

That **hackers have proven** that **with brief access to the memory stick** that transfers votes between the counting machines not connected to the internet and the connected machines, **they can easily manipulate elections** by changing the votes on the memory cards as they move from the computers not connected to the internet?

# Did you Know?

That **by bringing back moved and dead voters to the registration rolls, stored by ES&S and then mailing in votes for them** and then re-counting the “stuffed” ballots will always show our voting machines are right?

In Nebraska, **58,000+ voters were added to registrations in 2020 before the election and then 26,000+ registered voters were removed by ES&S between Feb & March 2021 after the election.** *Who were these people?*

There was an increase of **55,629 people who voted** in 2020, when the **increase to the eligible voter population was only 41,850.**

When we asked, **County Election Officials** have written us saying they **don't have or keep the election ballot images from 2020**, THIS IS **NOT in accordance** with Nebraska Election Law. **WE GUESS ES&S has the records.**

# Did you Know?

**MEMORANDUM OF AGREEMENT  
BETWEEN THE CENTER FOR INTERNET SECURITY  
AND  
LANCASTER COUNTY, NEBRASKA FOR  
Endpoint Detection & Response (EDR) Services  
(Federally Funded Services)**

This MEMORANDUM OF AGREEMENT ("Agreement") by and between the Center for Internet Security, Inc. ("CIS"), operating in its capacity as the Multi-State Information Sharing and Analysis Center (MS-ISAC) and the Elections Infrastructure Information Sharing and Analysis Center (EI-ISAC), located at 31 Tech Valley Drive, East Greenbush, NY 12061-4134, and Lancaster County, Nebraska (Entity) with its principal place of business at: 555 S. 10<sup>th</sup> St., Lincoln, Nebraska 68508, for EDR Services, as defined herein below (CIS and Entity collectively referred to as the "Parties").

V. Title

The EDR Services include use of software that is licensed to CIS by a third party provider, CrowdStrike, Inc. ("CrowdStrike"). All title and ownership rights of the software shall remain with CrowdStrike.

Our Lancaster County Nebraska **votes are stored by ES&S using software from** a company called **CrowdStrike**, owned and **operated by a Russian national?** The **same company, hired by Hillary and the DNC** that investigated and **found Russian hacking of DNC servers as part of the Trump/Russia collusion** that was later **proved to be a Lie by the FBI?**

CENTER FOR  
TECH AND  
CIVIC LIFE

C-20-0650

September 30, 2020

Lancaster County, Nebraska  
Lancaster County Board Chair  
555 S. 10th Street, Suite 110  
Lincoln, Nebraska 68508

Dear Sean Flowerday,

I am pleased to inform you that based on and in reliance upon the information and materials provided by Lancaster County, and the special circumstances Lancaster County faces administering elections in 2020, the Center for Tech and Civic Life ("CTCL"), a nonprofit organization tax-exempt under Internal Revenue Code ("IRC") section 501(c)(3), has decided to award a grant to support the work of Lancaster County ("Grantee").

The following is a description of the grant:

**AMOUNT OF GRANT: \$404,584.50 USD**

That **Lancaster County accepted \$400,000 of "Zuckerbucks" from Mark Zuckerberg of Facebook**, to "help" in getting the vote in and counting the votes.

*That in **Lancaster County**, we **spent \$13,000+ of Zuckerbucks** on voter Education and \$266,000+ on mail-in voter supplies and \$10,000+ for drop boxes. **I wonder what the voter education was like? Who got the mail-in voter supplies? And Where they placed the Drop Boxes? Did they copy Wisconsin or Chicago?***

# Poor People Get their Votes Stolen FIRST – Arizona Report

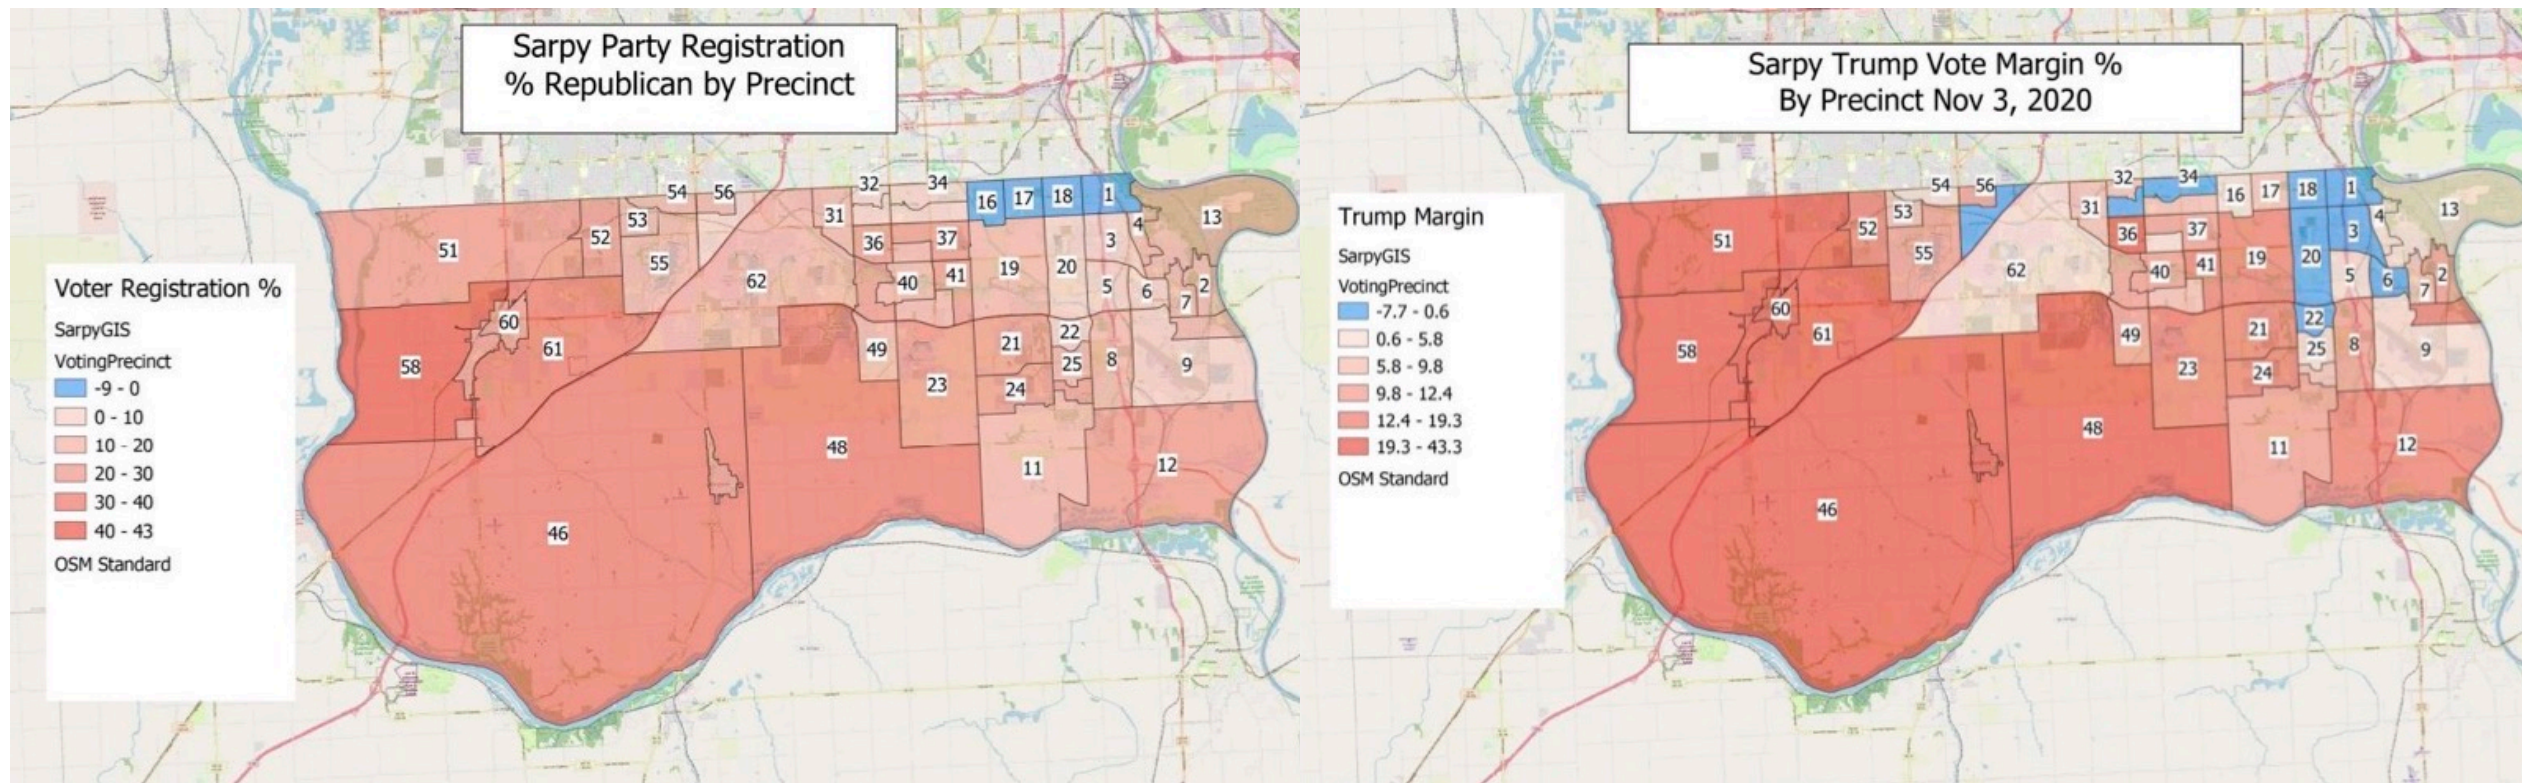

Sarpy County Poorest Neighborhoods in Bellevue  
Greatest Overvote for Biden

# Poor People Get their Votes Stolen FIRST – Arizona Report

Sarpy County Poorest Neighborhoods in Bellevue  
Greatest Overvote for Biden

# Excess Votes and Fraudulent Results

In Sarpy County, of the nearly **25,000 votes** cast, **Jen Day defeated incumbent Andrew LaGrone** by only **266 votes** for the District 49 Legislator seat.

Out of over **18,000 votes** cast, incumbent **Carol Blood defeated Rich Holdcroft** by only **160 votes** for the District 3 Legislator seat.

***Both losses resulted in the Conservative candidate losing.***

We estimate that in **Solid Red Sarpy County** we **had over 8,000 "excess" votes**.

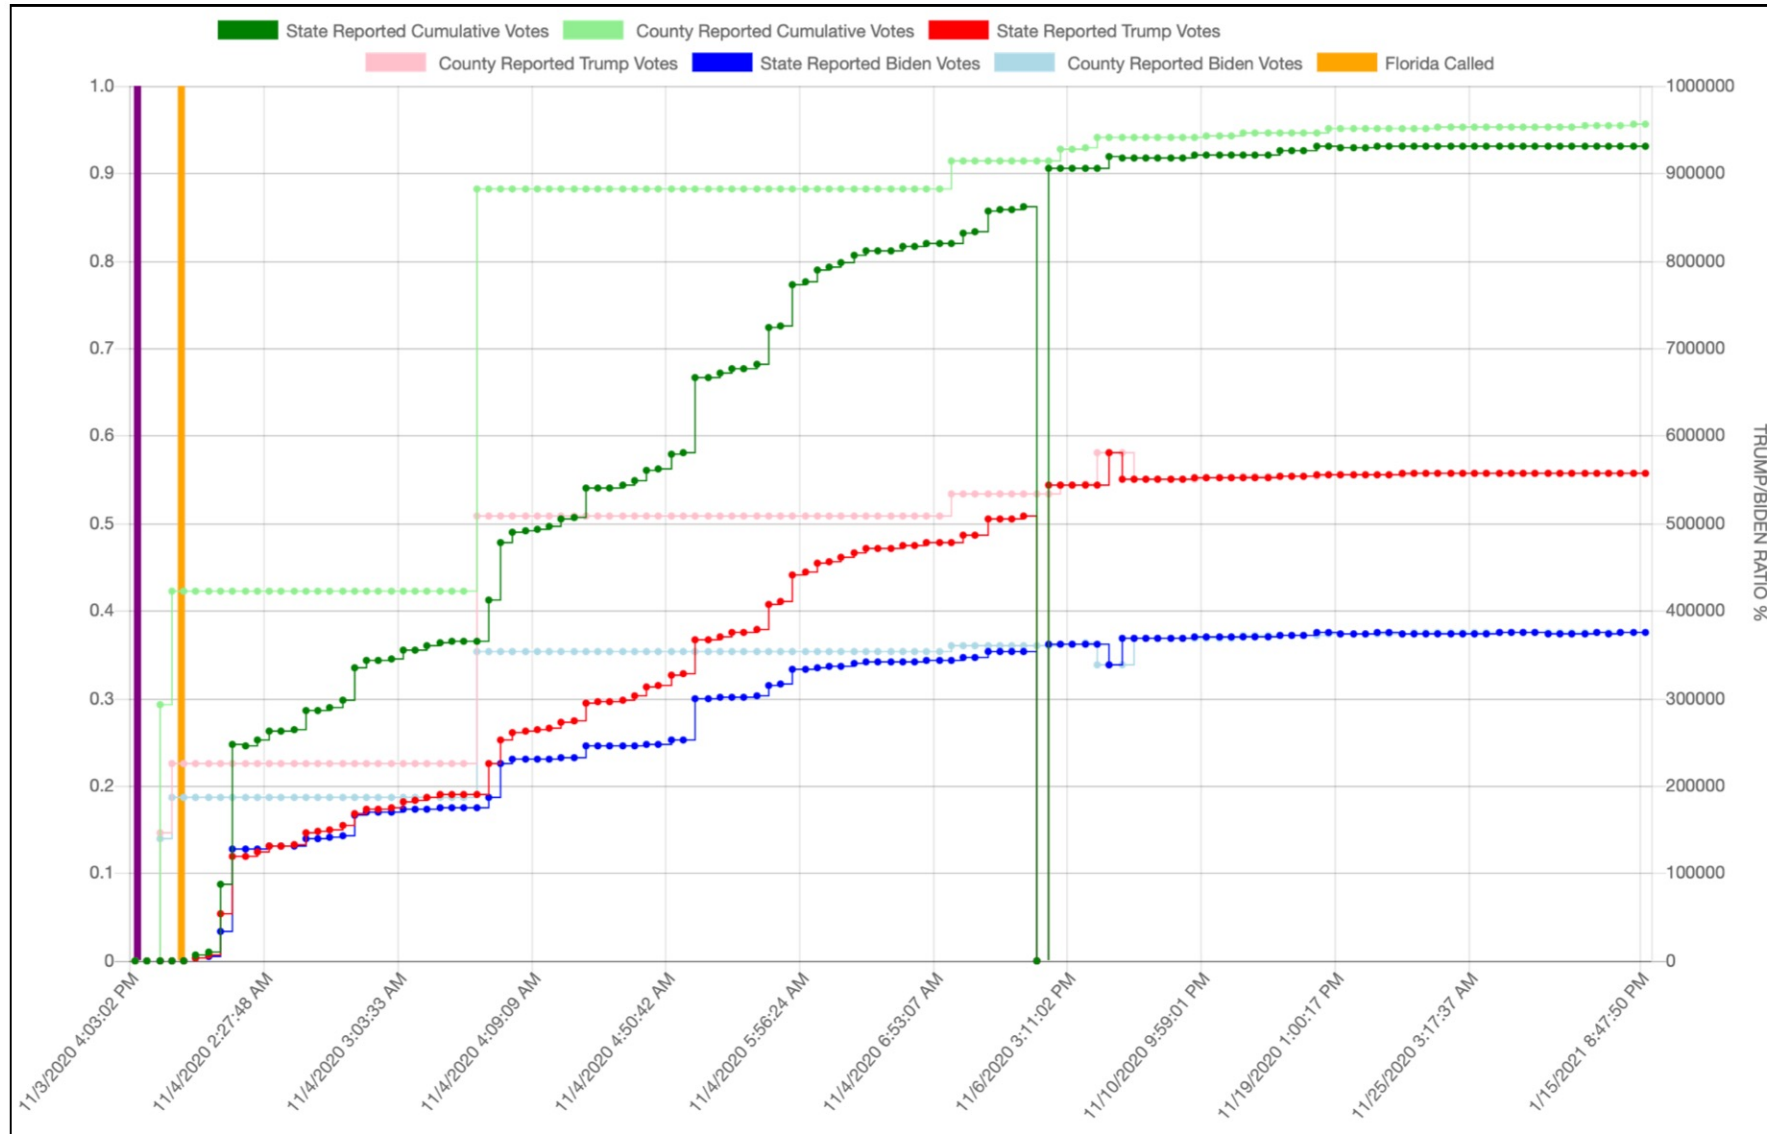

With limited canvassing, **we have dozens of affidavits** of unsolicited mailed ballots to people to wrong addresses, wrong people and people who did not request them.

**No Surprise Here!**

# County and State Reporting

## NEBRASKA - Comparison of County Reporting to State Reporting - 2020 Election

# How Our Elections Are Being Stolen, In a Nutshell

- 1) Artificially inflate the voter rolls;
- 2) Track the voters and tallies in real time;
- 3) Stuff ballots to achieve the pre-determined outcome;
- 4) Clean up the evidence after the fact.

The entire process is controlled, aided, and monitored by computer algorithms. They've been developing these algorithms for years, and they are quite efficient. They also have the infrastructure and the resources to implement it.

If Trump wasn't so popular, they wouldn't have had to push the algorithms so hard and the cheat would have been more difficult to glean from the real votes. But in 2020 it took everything they had, and it still didn't work.

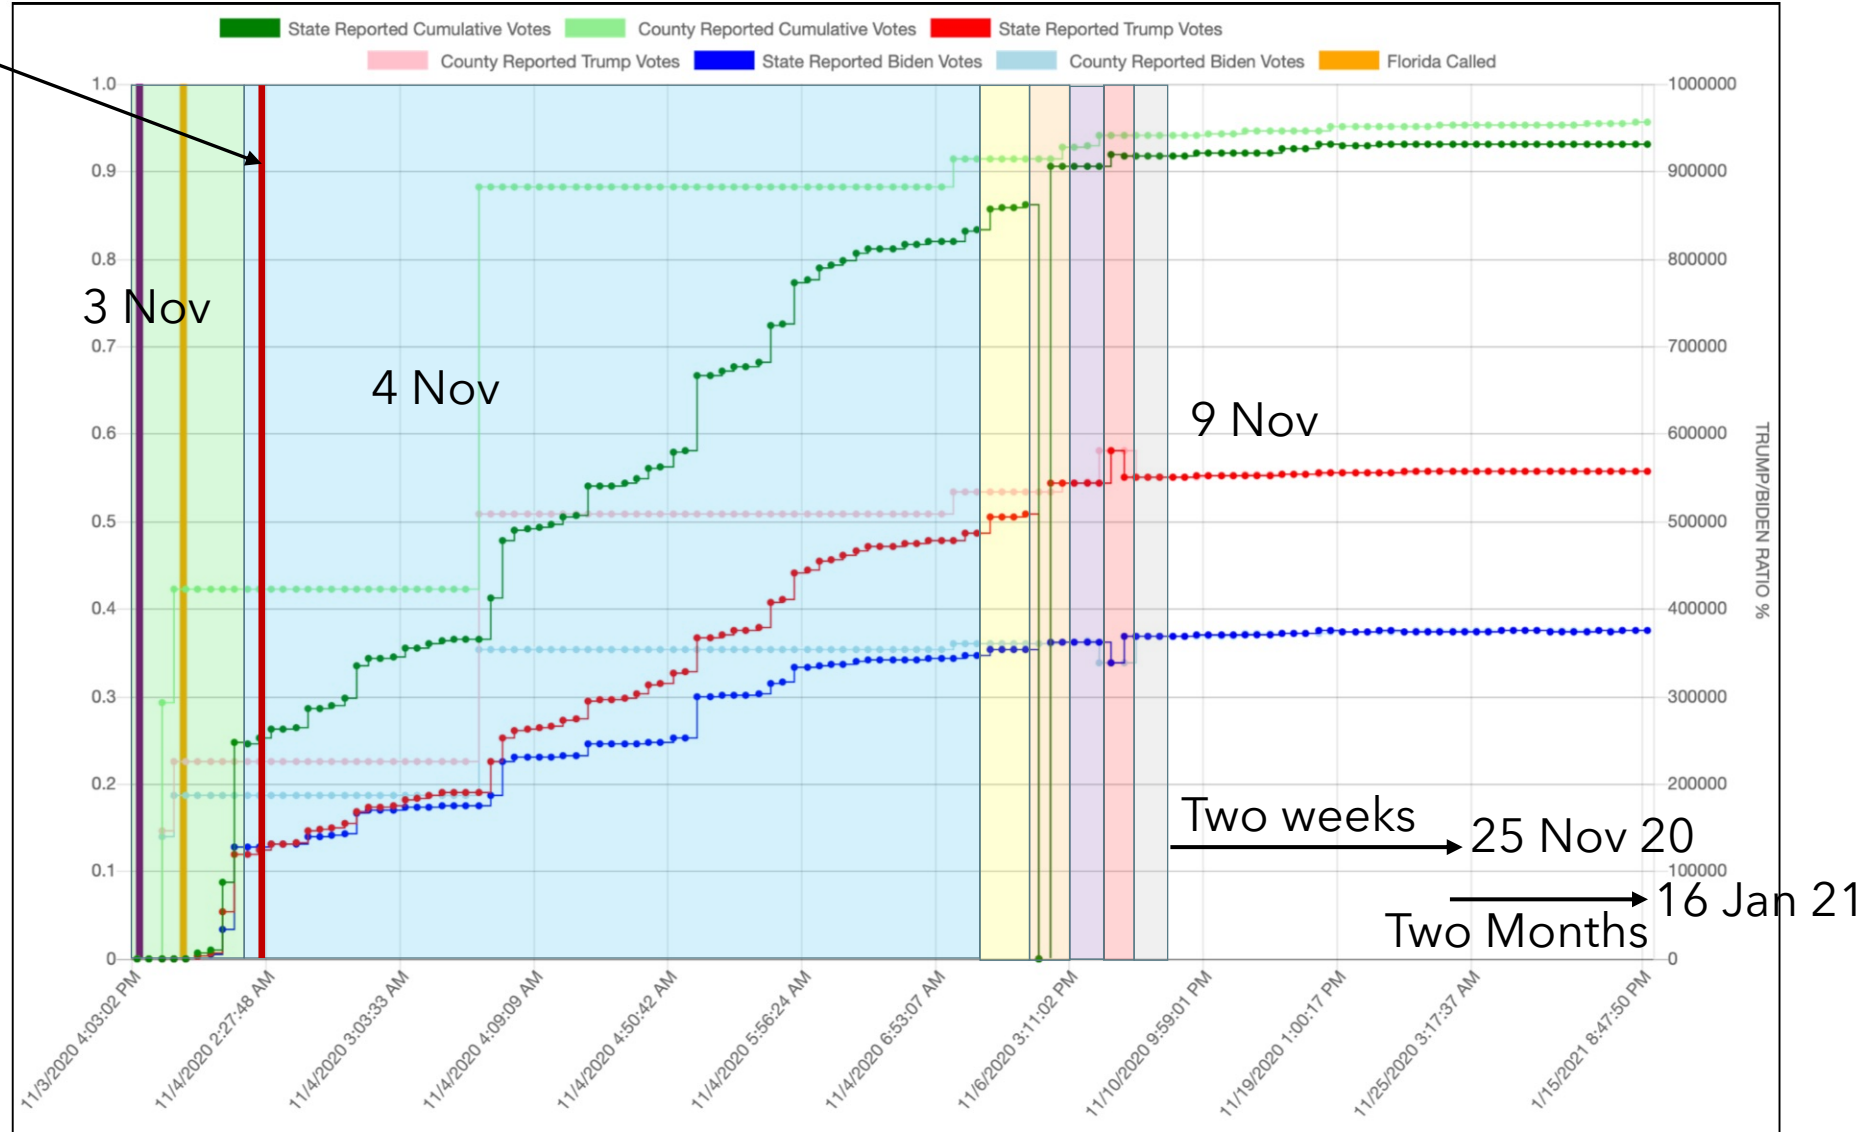

So they stopped the election, reset it, then resumed.

# County and State Reporting

## NEBRASKA - Comparison of County Reporting to State Reporting - 2020 Election

Normal  
Legal Vote -  
flat ratio line

Illegal Vote  
slopes to the  
final vote as  
votes are  
added due to  
the algorithm  
telling the  
vote stuffers  
how much to  
add

© 2021 Walter C. Daugherty

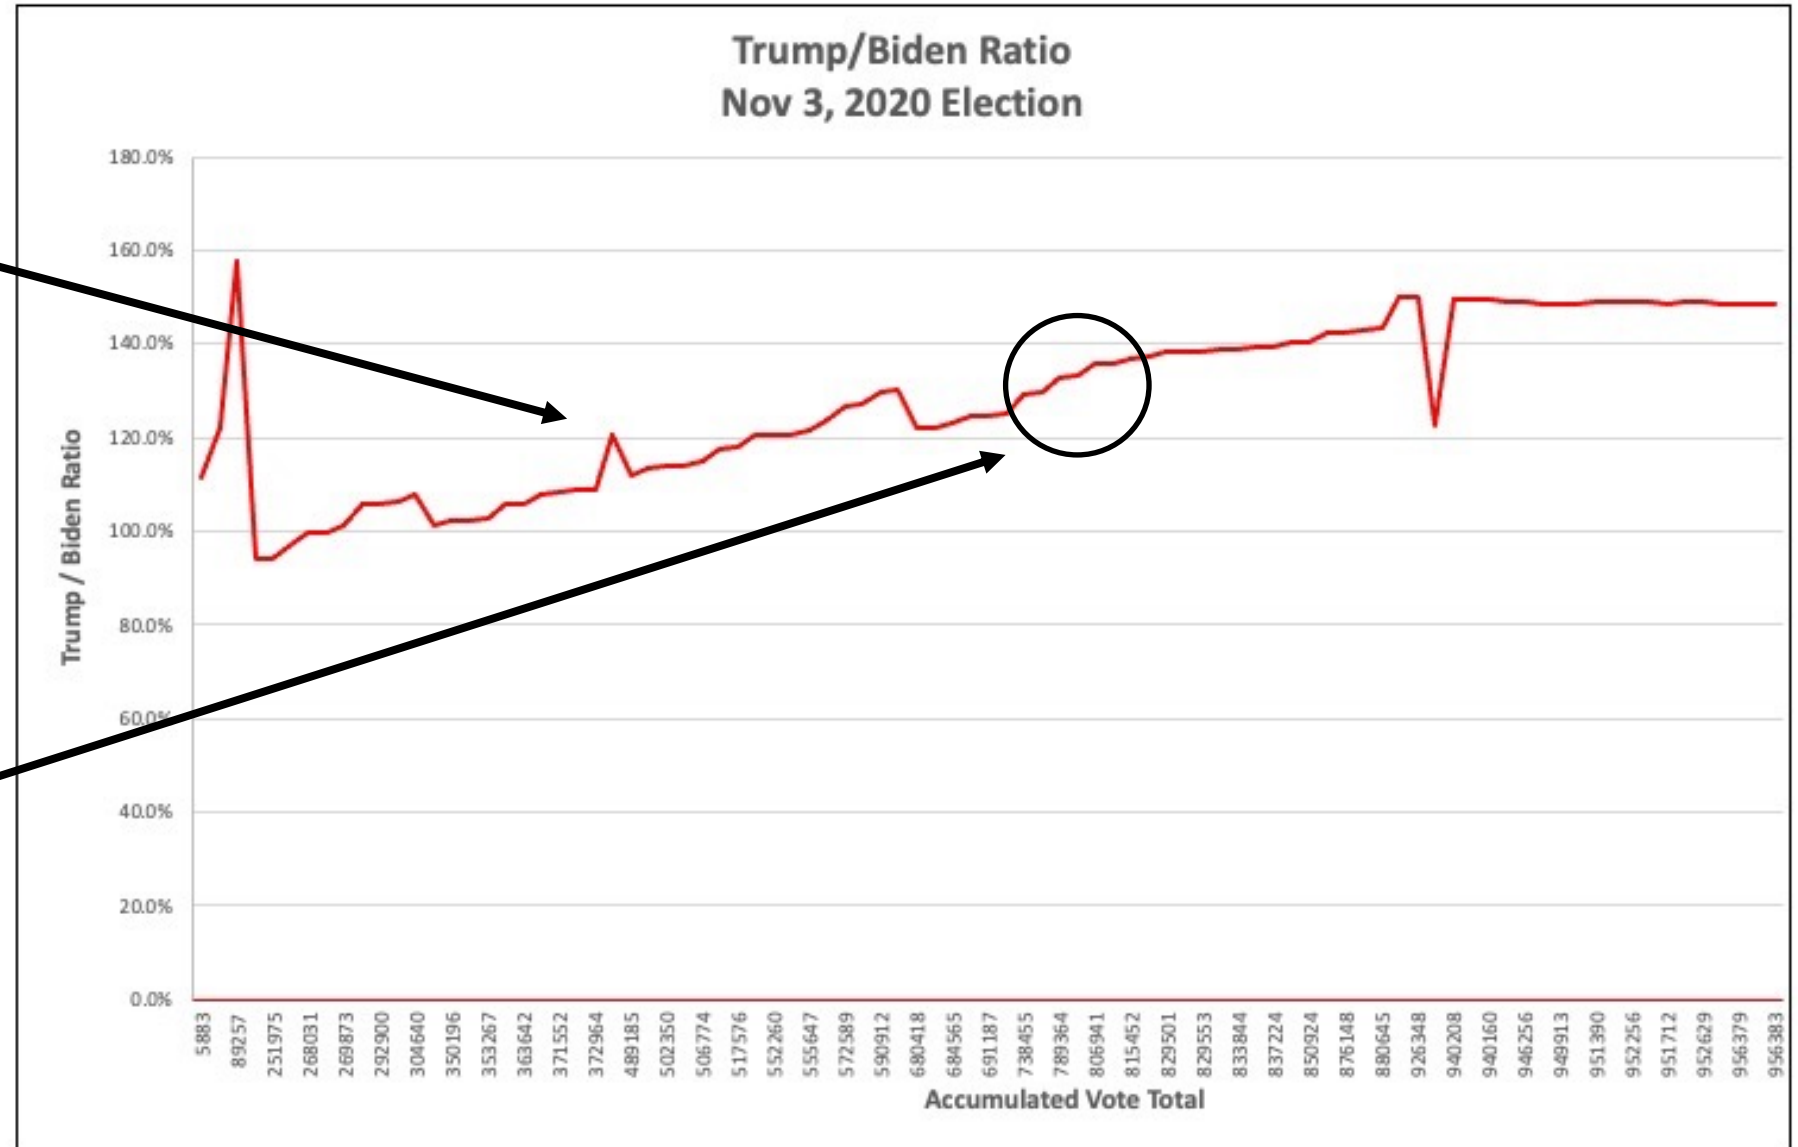

Totally  
Illegal Vote -  
constant  
sloping ratio  
line. Votes  
grow  
increasingly  
for one  
candidate

# Nebraska ACTUAL Votes - 2020

**Totally Illegal Vote** -  
sloping ratio line with  
algorithm trying to  
change "ratio"  
constantly

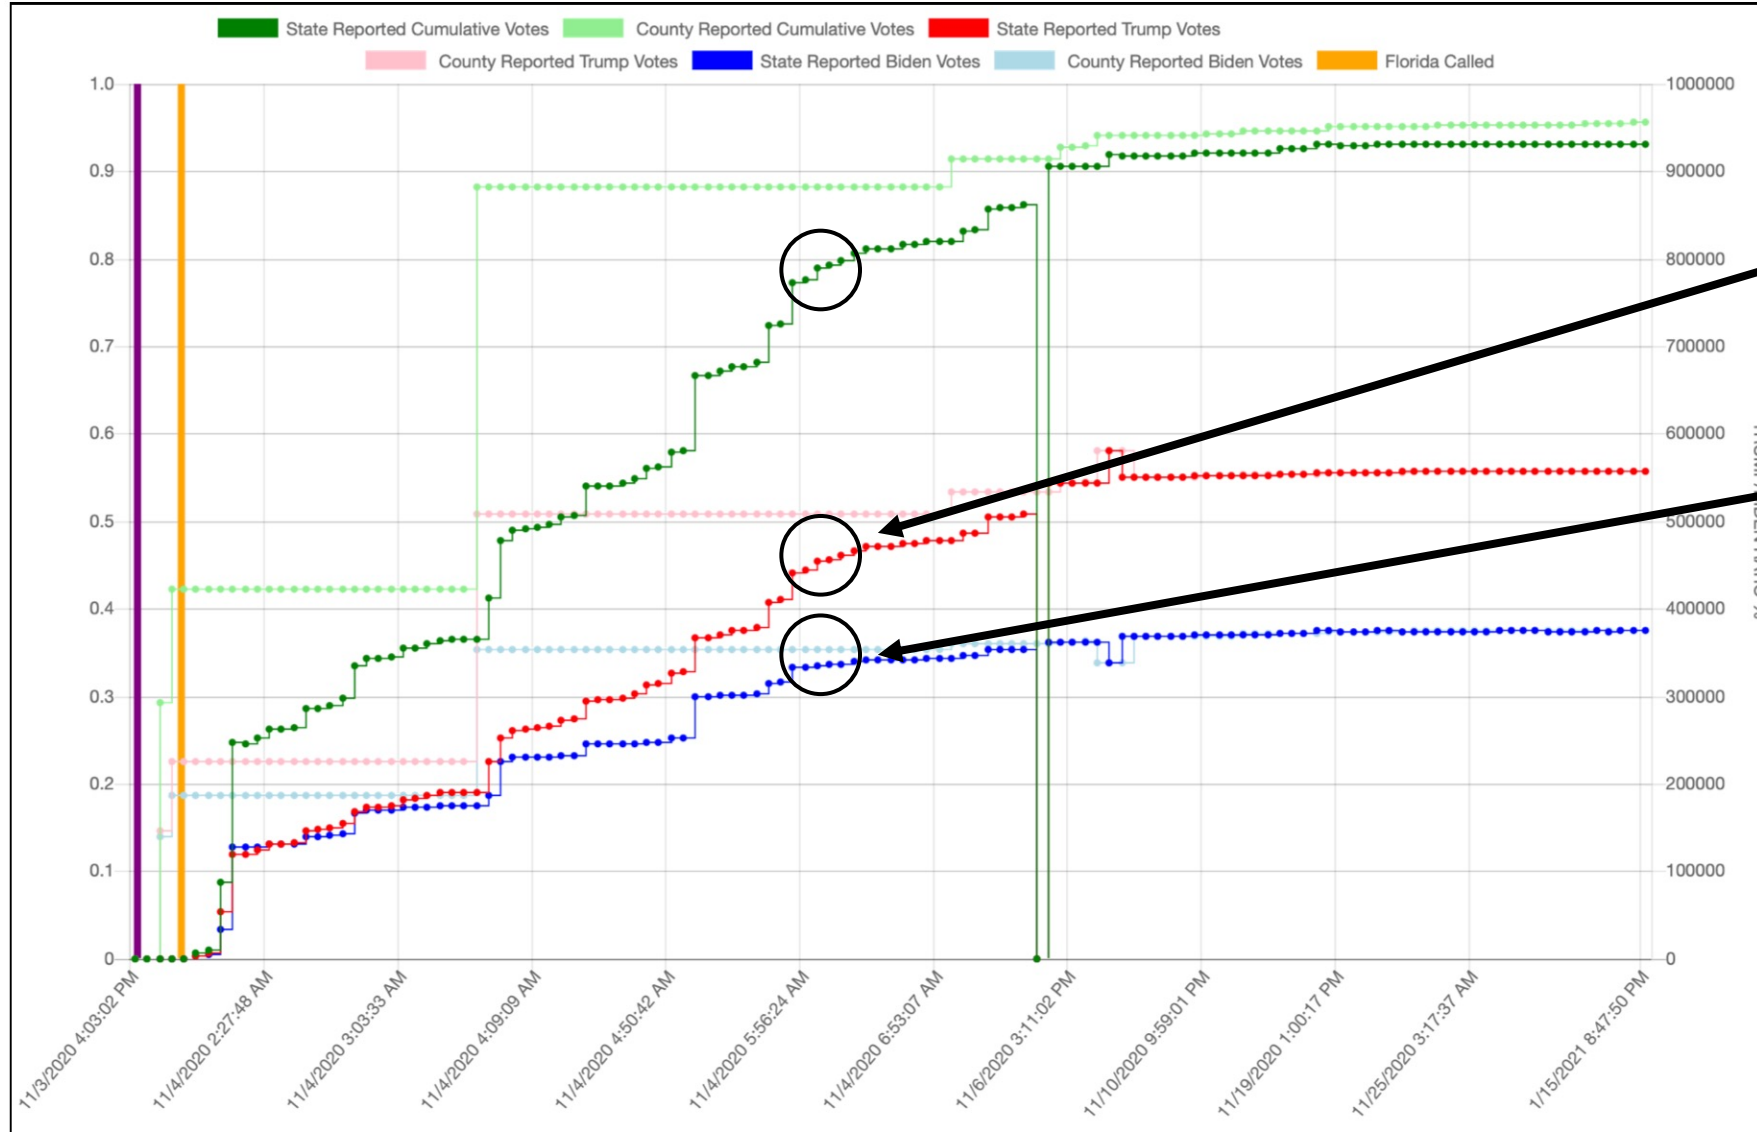

Nebraska 2020 votes  
reported by the SOS  
for Trump/ Biden -  
Notice the slope this  
means larger and  
larger votes for Trump  
have to occur each  
time to reach the  
"Target Ratio"

# At the End – High Trump to Biden

## NEBRASKA - Comparison of County Reporting to State Reporting - 2020 Election

# Want Proof? – from Nebraskans!

**Prior to the 2020 election we received 3 ballots for Lindsey F.** at our address Lindsay is **a daughter** but **has not lived at this address for more than 15 years**. Additionally, **Lindsay's name changed** to Lindsay S. Lindsay was 16 years of age when she last resided at our address and was **NEVER A REGISTERED VOTER WHILE LIVING AT THIS ADDRESS**. When we contacted **Lindsay she said at no time did she request a mail in ballot**. She further stated that she is **a registered voter (Democrat)** but has never been registered at our address, she also stated that she **did not vote in the 2020 election**. – **Cheree F.**

Kristine S. **does not live here and has not for 20 years**. – **Charleen S.**

My name is Justin T. I reside at <address> with Ashley T. We each **received 2 ballots** with our names on them for each of us, then a week to a week and a half later we each **received 2 more** and **then** I think we received **1 more**. We are **both registered Republicans** and have **never requested** any ballots. – **Justin T.**

I spoke to Dennis G he said his father **Harley G died 11 years before the election, his mother died 1 year 6 months before the election** and they **both received ballots** in the Nov. 3, 2020 election. Their address is \_\_\_\_ then they were in assisted living! – **David D**

Sworn Affidavits from Nebraska Voters  
*It's the Canvass, not the Count*

# Want Proof? – from Nebraskans!

**I did receive one ballot I requested** from Fred Mytty's office in Dodge County NE, for the Nov. 3rd 2020 Election, but **I also received 3 other ballots from whoever**, one of them came months after the 2020 Presidential Election. **The additional 3 ballots that came were not on as heavy of paper.** - **Debra**

I spoke to Myron he said **he did not receive a mailed ballot** for the Nov. 3rd, 2020 Election. In Thayer County they mailed out ballots. He went to the courthouse to see why he did not receive a ballot and the **election staff told him he had already voted**, he had NOT VOTED. He turned around and left the courthouse! HE DID NOT VOTE. - **David D.**

**I received 4 ballots for the Nov. 3rd 2020 election. I do not know the person that's name was listed on all 4 ballots.** We are both registered Republicans and have not requested any ballots. We opened the ballots we received and then threw them away. - **Anne**

Sworn Affidavits from Nebraska Voters  
*It's the Canvass, not the Count*

# Proof Positive – Stacked!

- Even Compared to Other States, Nebraska is in the fraudulent category
- The Nebraska Voting System is Corrupt and no one is checking
- Due to our Fraudulent Voting System and ballot control we have over a dozen races where the difference is less than the “Excess” votes
- Excess votes are both no-name “stuffed ballots” and Phantom Voters
- Simple statistical analysis of our counties proves the Election was fraudulent
- Now we understand how they are cheating!
- Who is making up these reports to Edison? - The Cheaters
- Nebraskans are providing us sworn testimony
- Like him or not - Trump lost an electoral college vote here, we helped elect Joe Biden to the White House and we’ve done nothing to correct something that is wrong – for any Nebraskan – and MUST be Corrected

# Proof Positive – Stacked!

*This Election was Fraudulent*

This is Proof that it needs to be Audited and Obviated  
Or  
Simply Obviated

# 21<sup>st</sup> Century Crime and Mgt

- Cyber bullies and Global Cyber Criminals are rampant. Every 30 year-old understands these facts of life, If you Don't - You shouldn't be in charge
- All 93 County Clerks could not printout fundamental reports from their tabulating machines as described in their operating manuals. They responded with not knowing, often referring us to ES&S. Totally incompetent and pathetic.
- This election was stolen from under the noses of our Nebraska political leadership. Their response to the loss of \$10,000 from their bank account through a digital theft was a 20th Century response of grabbing their wallet. Too late! you were a "Mark" weeks before the "Sting".

# 21<sup>st</sup> Century Crime and Mgt

- Can anyone blame them? No, they are simply dinosaurs from a time gone by. We can't afford, as a state, to have such cyber amateurs in charge.
- Not only do they not realize it happened, their response now, is to make partial changes like putting velcro on their pocket so their wallet doesn't fall out after an ID theft
- This non-response occurred when all 50 of the Secretaries of State met in Iowa last Spring. They all agreed that "nothing happened" and they've all stuck to the story.
- With their ostrich response of putting their heads in the sand, they have no ability to secure ANY future elections.
- Is this a Challenge for us, the citizens of Nebraska, following digital luddites? Yes.

**Eliminate Digital Voting Machines - Go Manual - and the Digital Theft Goes Away!**

# Proof Positive – Stacked!

*How are Voters Reacting to This and other Issues?*

- ✓ *Sure Nebraska had an Honest election*
- ✓ *Upset with...a lot*
- ✓ *Very Upset with the Biden Administration and Deep State*
- ✓ *Would be very upset to find out about our Election and our Elected Representatives responses*
- ✓ *New Jersey and Virginia are Just the Beginning*

# What Can We Do? – Get Involved

*This is OUR State and OUR Country – **No One Else Will Rescue Us***

- We need Nebraskans to be Involved
- Volunteer to Help with Nebraska Elections
- Volunteer to be on your local Nebraska School Board
- Join a Party and find other like-Minded Individuals to Change things from the Inside
- Don't let things Slide Backwards Until It's too late Because You're Busy

***VOTE! For the Initiatives that Change this!***

# What Can We Do? – Contact Your Representatives

*You have a Lot of Representatives – and we need more than Logic*

## **Contact:**

- ✓ **Your Legislator**, the *ONLY* person, other than you, that can vote to audit and decertify a fraudulent election – Tell them they Allowed our Election to be Stolen!
- ✓ **Your Governor**, so that he can influence the Legislature – – Tell him he Allowed our Election to be Stolen!
- ✓ **Your Congressmen and Senators**, so that they can influence the Legislature – Tell them they Allowed our Election to be Stolen!
- ✓ **Your Civic Groups**, so that they can influence the Legislature
- ✓ **Your Neighbors**, so they can do the same thing as you and multiply your effect

# “We the People” Can Enact Change via an Initiative

*We Need our Representatives to KNOW – We don't need them*

## **WE CAN CHANGE THE LAW OURSELVES**

- ✓ *If our Representatives won't Audit and find this Election Fraudulent, **Vote for the Initiative that will find the 2020 and 2022 Elections Fraudulent! - This would boot all of our Nebraska Politicians - Executive and Legislative - OUT until after a redone election with manual count ballots.***

## **AND**

- ✓ *If our Representatives won't get rid of Electronic Voting machines, **Vote for the Initiative that Changes our Constitution to mandate manual count elections forever in Nebraska.***
